

Placing people and the planet at the heart of the green and just transition

The REAL DEAL Summit

Democracy Institute,
Central European University
Nador St. 15., Budapest, Hungary

19-21 June 2024

REAL DEAL (Reshaping European Advances towards green Leadership through DEliberative Approaches and Learning) is a multi-year, trans-disciplinary project¹ bringing together researchers of deliberative democracy from a wide range of disciplines including political science, law, sociology, and psychology to collaborate with the EU's largest civil society networks and NGOs to reach millions of citizens and thousands of policymakers. REAL DEAL has developed, tested and validated innovative tools and formats to propel deliberative democracy to the next level in 13 countries and on EU level. The REAL DEAL Summit is about co-creating a new hybrid model of political inclusion that will include a comprehensive protocol for meaningful citizens' participation and deliberation to work towards the objectives of the European Green Deal. It develops recommendations on how to design such processes and their application in various contexts by European institutions, Member States, and civil society alike.

Detailed Program

June 19, Wednesday

09:00 - 13:00 Closed Workshop for local partners of the REAL DEAL Project
(invitation only)

¹ This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101037071.
